

Logging onto St Joseph's DB Primary

- First access the St Joseph's School website using the following address:
<https://www.stjosephsaldershot.org/>

- Scroll down the St Joseph's homepage and right click on the DB Primary icon.

- It is important that you can see the School name on this page.

- Enter your child's username and password.

Below is an example of your child's homepage (this may vary slightly depending on the year group your child is in).

Calendar- Children have their own personal calendar they can add information too.

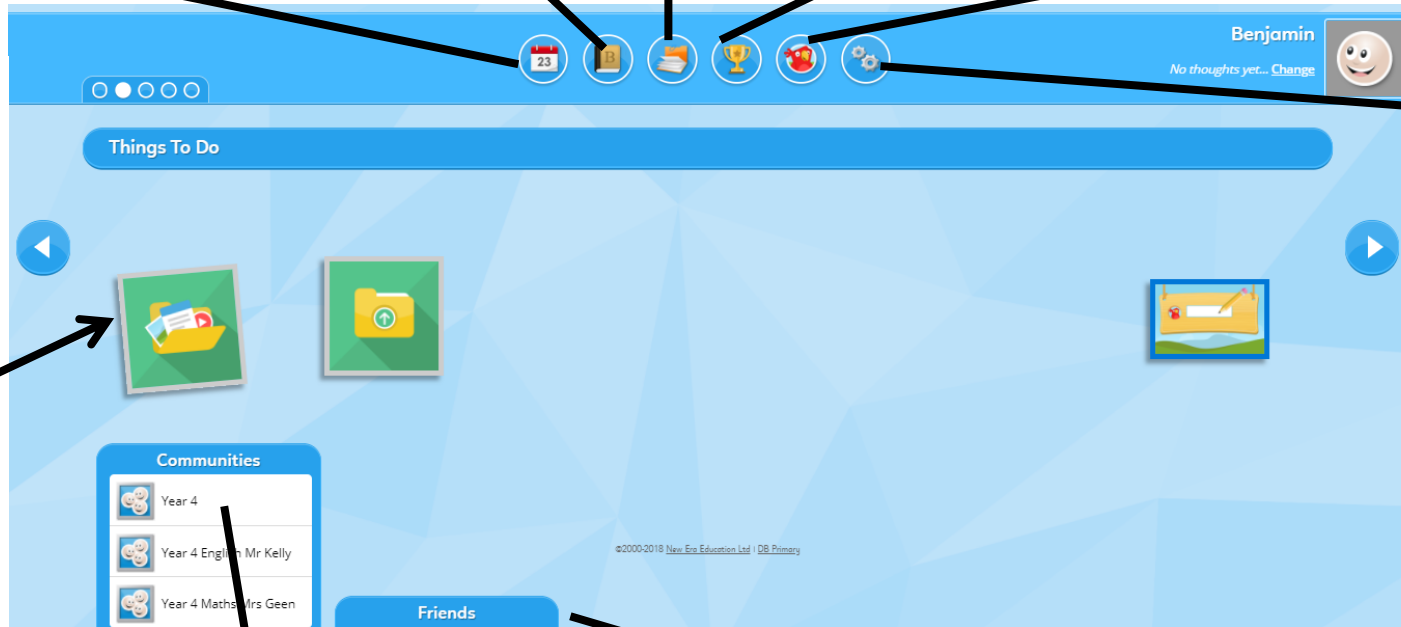

Blog- Children have the opportunity to write on their own blog. This can be seen by teachers, although won't be marked.

My Work- Children have an area to store work that they are completing at home.

My Rewards- Teachers may give rewards for your child's learning.

Activities- DB learning library which contains games and resources that your child can explore that links to the National Curriculum.

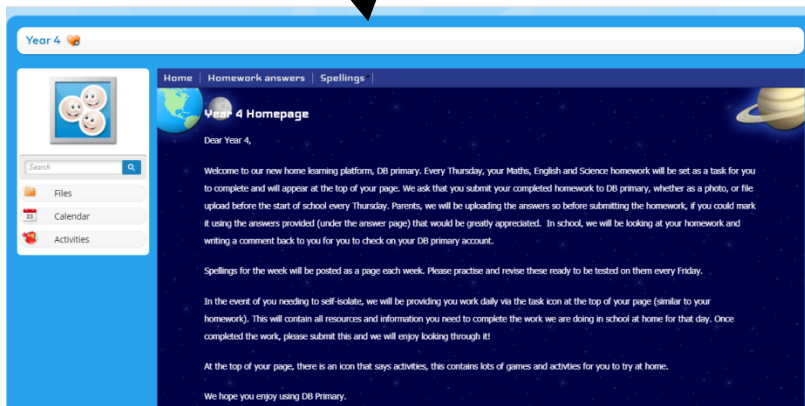

Things to do- Homework tasks and individual self-isolation tasks will appear that are set by your child's class teacher. These activities once submitted the teacher will be able to provide feedback to your child.

My Setting- Children can create a profile picture and change/personalise their homepage.

Friends- Button has been disabled.

Communities- Year group and Maths/English set which your teacher will use to communicate and set work in the event of a local or national lockdown.
